JEWELLERY WITH A MEANING™

All of our jewellery is inspired by either Mother Nature, or by the sacred symbols, icons, talismans and art which humanity has created over the millennia. Since the dawn of history, people have always sought meaning in their lives.

Artist and craftsmen have in turn have always taken on the task of creating objects of art which express these archetypal concepts. These symbols are universal, they speak to everyone on some level, stirring common memories. Symbols go beyond the rational conscious mind into the realm of the unconscious, where soul memories reside. Meditation on such symbols gives one a feeling of oneness with the universe and can unlock the door to high understanding.

"Four Dancing Women"

These earrings are one of our best selling designs. The artwork is adapted by us from a 8000 year old cave painting found in North East Spain. It represents freedom, joy and sisterhood.

Frequently Asked Questions:

What are they made of and how?

Our earrings are made of either brass or surgical stainless. The designs are etched in the surface of the metal then inlaid with copper to increase the contrast. We use a light gauge metal which is domed to give it strength while being light and comfortable to wear.

What are the findings made of?

All of our ear wires are made of Surgical Stainless Steel and for *most* people they are non-allergenic!

How do I keep them clean?

The easiest way to care for these earrings is to wipe them off with a soft cloth after wearing them to remove fingerprints and prevent tarnishing. Should stubborn stains occur, use silver or brass polish to clean them. DO NOT put these earrings into an ultra-sonic cleaner.

Retail Ordering Information:
